Designed around U

The definitive collection of seating solutions designed to seamlessly integrate into and elevate any contemporary environment, from collaborative workspaces to refined meeting rooms and home offices. Built upon a single, organically-contoured shell design, the 'ovo' collection offers boundless possibilities through a wide range of frame and base configurations, material finishes, and upholstery options.

Ovo

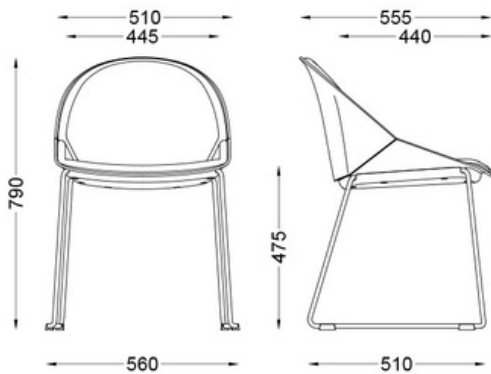

LEARN MORE ABOUT THE **OVO** CHAIR

1

- **Seat Design:** Features a modern, smooth white outer shell with integral interior panels.
- **Upholstery:** The integral panels are designed to be upholstered, providing a comfortable, cushioned interior for both the seat and backrest.
- **Base Frame:** Supported by a sleek and sturdy black sled frame constructed from Ø11mm tubular metal.
- **Floor Protection:** Includes protective floor glides that attach to the base frame (glides require assembly).

DIMENSIONS

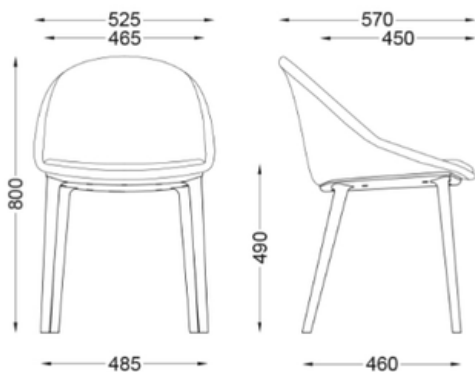

2

- **Seat Design:** Constructed with a contoured, ergonomic plastic shell.
- **Base Frame:** Supported by a classic four-leg base design.
- **Floor Protection:** Arrives with floor glides pre-assembled on the base of each leg, ensuring immediate floor protection and stability without requiring extra assembly time.

DIMENSIONS

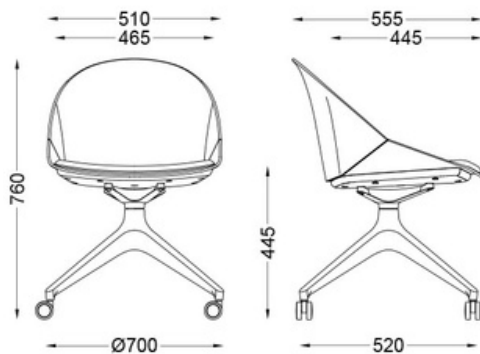

3

- **Seat Design:** Features a sleek, continuous plastic shell with no full upholstery, offering a clean and modern silhouette.
- **Support Structure:** Connects the seat to the base using a sturdy "Kylie" low nylon support mechanism.
- **Base Frame:** Equipped with a black "Kylie" nylon pyramidal base featuring a wide Ø720mm spread for optimal stability.
- **Mobility:** Glides smoothly on Ø50mm castors, making it ideal for active workspace environments.
- **Customization Option:** Includes the option to add an upholstered seat panel for targeted comfort while maintaining the plastic outer shell.

WARRANTY AND SAFETY

- 5-Year Manufacturing Warranty.
- The warranty does not apply to components, external accessories, or materials supplied by the buyer and applied to the products for the purpose of customizing them.
- The company shall not be held liable if the product is used improperly (standing on it or using it as a ladder or swinging it in a way that could compromise its functioning and the user's safety).
- To lift or move the product, grasp it firmly by the supporting structure. The product must not be subjected to off-center loads: it is designed to be used under normal conditions, resting on its four legs or base.
